

TCS Previous-Year Pattern Practice PDF

About this PDF

This is an original CareerPrep AI practice PDF based on common TCS fresher assessment patterns. It is not an official or copied previous-year paper.

Common TCS Fresher Rounds

1. Online aptitude and verbal ability test
2. Programming logic or coding section
3. Technical interview covering project, OOPs, DBMS, SQL, OS, CN, and programming basics
4. HR interview covering communication, relocation, strengths, goals, and confidence

Sample Aptitude Questions

1. A number is increased by 20 percent and then decreased by 20 percent. What is the net percentage change?
2. If 6 people complete a task in 12 days, how many days will 8 people take at the same rate?
3. Find the next number in the series: 3, 8, 15, 24, 35, ?
4. A train crosses a pole in 12 seconds at 60 km/hr. Find the length of the train.

Sample Coding Practice

1. Write a program to reverse a string without using built-in reverse methods.
2. Write a program to count vowels and consonants in a sentence.
3. Given an array, find the second largest element.
4. Check whether a number is prime.

Technical Topics To Revise

OOPs concepts, DBMS normalization, SQL joins, operating system basics, computer network layers, arrays, strings, loops, functions, and resume project explanation.

Preparation Tip

Practice with a timer, maintain an error notebook, and explain every solved coding question aloud as if you are in an interview.
